© Hallmark Panels Limited 2021 - 2022 - Due to the limitations in photographic and printing processes, actual door and glass colours may vary from those illustrated in this brochure and should be used for guidance purposes only. Letterplate, trim & handle positioning is illustrated for guidance only. The actual fitted position is subject to door design, width and height restrictions and constraints. Hallmark Panels reserves the right to change product specification without prior notice. Door panels do not come with handles. Door panels do not come with trims as standard and will incur a surcharge. We never recommend bar handles are fitted through the panel. Solid panel designs are not available with solid reinforcement. It is recommended that any door or panel fitted in a coastal location, near open bodies of water or in extreme weather conditions should have a marine-grade finish.

COMMERCIAL ALUMINIUM

**Laminated
Supplies Ltd**

**Hallmark Doors
& Panels Ltd**

With over 60 years of manufacturing heritage and expertise, Laminated Supplies manufacturers a comprehensive range of bespoke architectural and construction supplies to building contractors, local authorities & refurbishment industries.

Offering bespoke products allows us to manufacture bonded panels that meet customer's unique design requirements and specifications. Our made to measure service reduces on-site labour costs by minimising fixing time, but also provides the customer with the widest possible scope in their choice of available materials.

With our heritage & expertise, you can contact us to further discuss your project or tender details.
